

Margaret Herrick Library
Health and Safety Policies

- Patrons must be fully vaccinated and provide proof of vaccination upon entry*
- Patrons will be required to complete a health check-in prior to entering the reading rooms
- Patrons are required to wear a well-fitting high-quality mask, preferably an N95, KN95 or KF94 respirator. Such masks will be available to patrons if they do not have one. Surgical masks will be allowed but are not preferred.
- Masks must cover mouth and nose fully at all times. If patrons remove their mask or are not wearing it properly, they will have one warning. If they fail to wear their mask properly a second time, they will be asked to leave the library.
- Patrons must make all efforts to maintain a distance of 6 feet from each other and staff, when possible.
- Patrons cannot come to the library if they are not feeling well or are exhibiting symptoms (symptom list and attestation is part of the health check-in). If patrons are exhibiting symptoms, particularly coughing, they may be asked to leave the library.
- Patrons will make an effort to contact the Academy (healthandsafety@oscars.org) if they test positive for Covid soon after a library visit, and/or suspect that they had Covid while in the library.

* A person is considered fully vaccinated against COVID-19 at least 14 days after receiving their second dose in a two-dose series (Pfizer-BioNTech or Moderna) or 14 days after receiving their single dose of the Janssen (Johnson & Johnson) vaccine. Digital vaccine records or physical vaccine cards are acceptable proof.
